The unique residential complex, The Peaks, is located on the Luštica Peninsula, close to the elite settlement of Lustica Bay. The architectural firm Block 722 and the design studio NRA Atelier have designed an exclusive complex, taking into account the characteristics of the area. The design of the complex combines the architectural traditions of Montenegro with modern trends.

The concept of the residence is based on a commitment to ecological principles. Only natural, high-quality materials, including stone and wood, are used in the interior design. There are elegant arches adorned with local stone and covered terraces that provide privacy, tranquility, and desired coolness on hot days.

This is the first and only residential complex in Montenegro with an 18-hole golf course designed by Gary Player. The golf course has been designed to harmoniously blend into the surrounding environment, taking into account the landscape's unique features. From every point on the golf course, there are breathtaking panoramic views of the Adriatic Sea and the Bay of Kotor.

The Peaks is a true oasis of peace and tranquility in the lap of nature. It is a space created to enjoy life.
