Blend of Nature and Architecture. This special design shows beautiful architecture in every part. Everything is placed carefully to fit with the surroundings and make the most of its spot. In this modern 415m² villa with 5 bedrooms and 5 bathrooms, each bedroom has its own door to the terraces, a big private pool, and a relaxing jacuzzi. This gives you the privacy you want at home. On the street level, a big garage for 2 cars makes it easy to get to the kitchen and living area. Big glass doors let in lots of light and you can see the mountains. There's also a bedroom with its own bathroom up a set of private stairs, nice for guests. With the mountains in view, this house fits well in La Marina's nice place where people live all year. It's by a nature area, a forest of tall pine trees, and a river called Segura. You can walk to three shopping places that are put in good spots. People who like sports and nature will like it, and you can drive a little to get to 7 nice beaches with blue flags. This villa is cool because it's only 5 minutes from a beach that won an award for being clean and nice. And if you want to fly somewhere, it's just 25 minutes to the Alicante Airport. The price doesn't include VAT
